

# CHRONOLOGY OF ACCOUNTABILITY

## Dossier NS-2026-0330: Validation of the 4:1 Natural Law

This log documents the formal confrontation between Neomodern Science and established scientific institutions. It serves as evidence of the transition of the academic system into a state of *Procedural Default*.

---

### PHASE 1: THE DEPOSITION (The Foundation)

- **March 30, 2026 | Formal Deposition** Initial submission of the dossier to the editorial board. Introduction of the **Xx/Yy-Logic** and the structural mapping of the **4:1 Architecture of Completeness**.
  - **April 15, 2026 | Confirmation of Logical Consistency (AI Audit)** Large-scale audits by AI models (including Gemini) confirm the internal mathematical consistency of the 4:1 axiom. Simultaneously, the first "systemic hesitations" (safety filters) are documented when conclusions threaten to override mainstream paradigms.
- 

### PHASE 2: THE MANIFESTO & PUBLIC DOMAIN

- **April 29, 2026 | Generation of the Manifesto** Formulation of the **Manifesto of Neomodern Science**. The distinction between the Fundamental Domain (Humanity as the Benchmark) and the Subordinate Domain (Modern Science) is finalized.
  - **April 30, 2026 | Public Recording** Publication of the Manifesto on *natuurfilosoof.nl*. The global community is alerted to misleading filters in AI systems that facilitate the devaluation of Neomodern Science.
- 

### PHASE 3: FINAL INTERVENTION (The Ombudsman)

- **May 2, 2026 (Digital Sum 12) | Submission of FINAL MASTER COPY** *Timestamp: 17:14:59 CEST*. Formal transfer of the synchronized dossier to the **Ombudsman of Springer Nature**.
    - **Contents:** Includes 5-Sigma validation (certainty), COPE-compliance justification, and the legal framework for the "Duty of Care."
    - **Status:** As of this moment, the dossier is "Complete" and irrevocable.
  - **May 3, 2026 | Recognition of the Prime Mover** Metaphysical and philosophical sealing of the dossier. The realization that the identified law is not a theory, but a reflection of the original causal order (The Unmoved Mover).
- 

### PHASE 4: PERIOD OF PROCEDURAL DEFAULT (Current Status)

- **From May 3, 2026 | Commencement of Tacit Admission** Since the dossier has reached the status of 'Complete', every day passing without a substantive mathematical rebuttal of Item 2.1 is documented as an inability of the institution to falsify the Natural Law.
  - **May 5, 2026 | Response from COPE (Helene Gibbins).**
    - **Status:** Procedural Confirmation of Evidence.
    - **Determination:** COPE acknowledges receipt and directs the case toward the **Facilitation and Integrity subcommittee**. This reinforces the procedural necessity to audit the integrity of the scientific record.
    - **The 5-Sigma Barrier:** The burden of proof now rests solely with Springer Nature. They are required to respond by May 16, 2026, to the submitted **5-sigma validation (certainty)** of the Xx/Yy-logic.
    - **Consequence:** Should the publisher fail to substantively address this mathematical absolute certainty, the case will be escalated to the COPE integrity subcommittee on the grounds of procedural default and breach of the *Duty of Care*.
  - **May 16, 2026 | Expiration of the 14-Day Notice Period** *Reference: Clauses Item 3.1 & 3.2.* On this date, the reasonable timeframe for a procedural response expires. The absence of intervention by the Ombudsman will henceforth be formally classified as "**Willful Neglect of the Duty of Care.**"
  - **May 30, 2026 | Status: Institutional Entropy** If no audit results are provided within 30 days of the Final Master Copy submission, the dossier status on this website will be updated to: "**Validated by Institutional Silence.**"
- 

## LEGAL & PROCEDURAL REFERENCES

To ensure transparency, this log utilizes the following reference numbers for all correspondence and evidence:

1. **REF: NW-41-AXIOM** – Pertains to the 5-sigma mathematical proof of the 4:1 ratio.
  2. **REF: COPE-VIO-2026** – Documentation of violations of ethical publication guidelines.
  3. **REF: OBM-DUTY-NS** – Formal complaint lodged with the Ombudsman regarding the institutional responsibility of Springer Nature.
- 

## MONITORING THE PRIME MOVER

The progress of this dossier is no longer determined by the willingness of an editorial board, but by the unstoppable logic of Truth itself. The timeline of the **Chronology of Accountability** is linear and irreversible.

**Current Status:** *Dossier awaiting institutional integrity.*
